---

Work Experience

Olsson - Product Developer via Raikes School Design Studio *September 2026 - Present*

- Building a data-driven pedestrian and rail safety platform that integrates multiple datasets to identify high-risk crossings, surface actionable insights, and support proactive transportation planning
- Lead Agile stand-ups and manage the team using Trello to track deliverables, coordinate priorities, and support project execution.
- Conduct customer discovery and collaborate with stakeholders to gather requirements for a data-driven pedestrian railroad safety dashboard, translate customer needs into product requirements, and guide feature prioritization.

Conagra Brands - Data Management Intern *May 2026 - Present*

- Built and tested SAP S/4-compatible Evolve forms and scripts, migrating 5+ enterprise workflows from SAP R/3 and validating functionality through User Acceptance Testing.
- Developed 40 automated data-quality rules using SQL logic in ADMM to proactively flag master-data issues, reduce manual review, and strengthen data integrity ahead of the SAP S/4 migration
- Developed an AI-powered MRO Copilot agent to identify 500+ duplicate records, flag data inconsistencies, and support automated data-quality review.

Werner Enterprises - Product Management Intern *May 2025 - April 2026*

- Drove product enhancements to the Commitments feature in Edge TMS, reducing manual lane validation through automation and improving data consistency across teams
- Assessed AI readiness with stakeholders, identifying high-impact use cases and implementation gaps that informed the adoption roadmap
- Owned product strategy and executive presentation of an embedded cargo insurance experience across Bridge and Edge TMS, improving customer workflows

Reach - Product Management Intern via Raikes School Startup Studio *September 2025 - December 2025*

- Partnered with the founding team to lead customer discovery efforts ahead of product launch
- Conducted structured interviews with school administrators, synthesizing feedback into actionable product insights
- Translated customer needs into clear feature requirements, directly shaping the app ahead of its January launch

---

Projects

DeltaBoard

- Conducted customer discovery to inform feature prioritization and overall product direction
- Defined core features and MVP scope using user research and market insights
- Developed a go-to-market strategy to support product launch and early user adoption

---

Leadership

Delta Sigma Pi - Vice President of Marketing *April 2026 - Present*

- Designed and implemented systems to improve content capture and distribution (e.g., PhotoCircle integration, recap media), increasing member engagement and strengthening chapter brand presence

National Honor Society - Chapter President *May 2023 - May 2024*

- Led chapter initiatives & established an Events Coordinator role to improve operational efficiency and execution

Gita For Youth Leadership - Co-Founder & Lead Teacher *December 2021 - July 2024*

- Co-founded and led development of a youth-driven curriculum, translating principles from the Bhagavad Gita into practical frameworks to help teens manage stress, motivation, and academic pressure
